Other Projects

- **EMS – Employee Management System** : Developed a Java-based system to manage employee records, attendance, and basic HR operations. Technologies: Java [GitHub Link](#)
- **Amber Bakery – Bakery Management System** : Developed a C++ application to manage bakery operations, including inventory, orders, and sales tracking. Technologies: C++ [GitHub Link](#)

Skills

Programming Languages : Java, C#, C++, PHP, JavaScript

Web Development : HTML, CSS, JavaScript, PHP, Bootstrap, Tailwind CSS, React, Laravel

Frameworks and Libraries : Laravel , React , Bootstrap , Tailwind CSS

Databases : MySQL, PostgreSQL

Tools and technologies : Git, GitHub ,VS Code, Android Studio

Education

Cardiff Metropolitan University- *BSc (Hons) in Software Engineering 2023 - Present*

- **Related coursework**: Software project, Web development, Artificial Intelligence, Computer Architecture, Data structures and Algorithms, Design patterns, Software Engineering Principles, GUI development, Object Oriented Programming, Databases.

G.C.E. Advanced Level Physical Science Stream- *St. Thomas' College - 2020*

Extracurricular Activities

- Executive Committee Member,ICBT Kandy Campus IT Society (2024–2025), involved in organizing technology events including the Dialog Ideamart Mobile Application Development Regional Tech Event 2024, Software Freedom Day 2024, Exito 2024, and other college-level IT initiatives.
